## **Proud father. College professor. Planetary scientist.**

In 2015, Dr. Bruce Hapke and his wife Joyce moved into The Village at St. Barnabas. The biggest requirement they had was a den where Bruce could continue his work with NASA. Now, at 93, he is visiting the moon daily through the images downloaded from a lunar orbiter and offers his insights to the scientific community. His life is enriched by his work and the many comforts that his St. Barnabas community provides!

**Bruce is over the moon for The Village at St. Barnabas!**
